

Front runner of Healthcare Excellence in India

Driving Impact Through Patient-Centric Care and Best-in-Class Innovation

In this exclusive interview with Dr. Yashraj Patil – Trustee and Treasurer of Dr. D.Y. Patil Vidyapeeth (Deemed to be University), Pimpri, Pune, he shares the rich legacy of DPU Super Specialty Hospital, Pimpri, Pune and how the hospital’s technological advances and patient-centric approach have made a difference to millions of lives so far.

Q *DPU Super Specialty Hospital has emerged as one of the leading hospitals in India today. What factors do you attribute to the hospital's success?*

The measure of our success is the trust that old and new patients place in us, by making us their preferred hospital for all their healthcare needs, be it preventive or therapeutic. Today, we are trusted by millions of patients as a well-known hospital where patients are not just treated, but cared for with respect, empathy and compassion.

Our success can be attributed to our unwavering commitment to patient-centric care and making healthcare excellence our continued focus. Through a strong focus on innovation, state-of-the-art infrastructure and cutting-edge technology, we have established an unparalleled legacy in the field of healthcare and patient care. Additionally, our team of highly skilled doctors and other healthcare professionals play a vital role in delivering exceptional patient outcomes and earning the trust of more and more patients.

Q *Technology is increasingly playing a role in transforming healthcare. Tell us something about your focus on technology as a leading hospital in Maharashtra.*

Our commitment to excellence drives us to continually expand our array of cutting-edge medical technology, because it is the lifeline for patients. By embracing innovation, we also ensure that our medical experts have the necessary tools and technology to deliver exceptional care to our patients. Our approach revolves around harnessing the power of advanced technology to enhance patient care and outcomes.

We have achieved remarkable industry-first breakthroughs such as procuring Asia’s first 3 Tesla-Vida MRI scanner, Pune’s first Time-lapse imaging Embryoscope, Pune’s first 4th Gen Da Vinci Xi robot with Dual Operating Consoles, and the pioneering Anti-ageing Fotona Laser Machine, all of which have significantly enhanced the hospital’s clinical capabilities and have empowered them to set new standards in innovation, productivity and patient comfort.

Reinforcing our strong focus on futuristic technology, we have been rapidly embracing the latest healthcare innovations, such as Wearable Devices and the Internet of Things (IoT) for highly enhanced health monitoring. We are strongly looking at Artificial intelligence (AI) and Machine Learning (ML) solutions, which are transforming the way healthcare is being delivered to our patients.

Q *The patient success stories in organ transplantation at DPU Super Specialty Hospital, Pimpri, Pune have been making headlines. Can you share some insights into these?*

Organ transplantation is one of most important advancements in modern medicine today and we have been at the forefront of helping save lives through multi-organ transplantation. We take pride in being considered one of the Best Organ Transplant Hospitals in India, with a track record of successful multi-organ transplants, including rare procedures like pancreas transplants and combined heart-lung transplants.

These achievements have not only saved countless lives but have also showcased our commitment to pushing the boundaries of medical excellence. Our strong patient-centric focus, our top-notch healthcare infrastructure, latest technology and a team of highly skilled and qualified doctors have all been instrumental in our hospital making history time and again as part of our expanding organ transplant program.

Q *The hospital has a strong legacy of almost 30 years. How do you ensure that the hospital continues to stay ahead in terms of patient care and clinical capabilities?*

Setting new standards in patient care and clinical capabilities requires a relentless pursuit of excellence and a forward-thinking approach. We prioritize ongoing research and development to stay at the forefront of medical advancements. Today, we are one of the few hospitals in India with more than 2000 beds catering to different specialties and super specialties, as well as multiple Centres of Excellence.

We have 18 modular operation theatres and more than 175 ICU beds, which reflects our commitment to making cutting-edge technologies and the finest infrastructure more accessible and affordable to patients. Additionally, investing in competent talent acquisition and development, be it doctors or support staff, and fostering a culture of innovation allows us to continuously raise the bar and meet the evolving needs of our patients.

Q *The hospital has received prestigious awards and accolades, including recognition for healthcare infrastructure and excellence. What do these achievements mean to you, and how do they reflect on the hospital's dedication to quality and innovation?*

Personally, these achievements are a testament to the collective efforts of our dedicated team and reaffirm our commitment to excellence in healthcare. They serve as motivation to continue pushing boundaries and striving for even greater heights of success. Moreover, they reflect the hospital's unwavering dedication to quality, innovation, and patient-centric care, reinforcing our position as a leader in the healthcare industry.

Q *How do you envision DPU Super Specialty Hospital, Pimpri, Pune contributing to the global healthcare landscape?*

Our vision is to position India as a global healthcare destination, and we see our hospital's clinical and technological excellence and patient-centric approach playing a pivotal role in achieving this ambition. Through strategic collaborations and investments in cutting-edge technol-

ogy, we have been attracting medical tourists seeking exceptional healthcare experiences. Our International Patient outreach program is a testament to our commitment to catering to the diverse needs of patients worldwide.

Q *Looking ahead, what are your aspirations for the future of DPU Super Specialty Hospital, and how do you plan to continue making a positive impact on healthcare?*

Our focus is centered on continually expanding our capabilities and reaching new milestones in healthcare excellence. We continue to have a strong focus on adopting advanced technologies, and enhancing patient-centric care. Additionally, we aspire to strengthen our position as a global healthcare destination, attracting patients from around the world to benefit from our exceptional care and expertise.

Q *What message would you like to convey to your patients and the broader community about the hospital's commitment to their well-being?*

I want to emphasize that our patient's well-being is at the heart of everything we do. We are committed to providing them with the highest quality of care, delivered with compassion, respect, and empathy. Their trust in us is the greatest testament of our success, and we remain dedicated to serving them with excellence, innovation, and unwavering commitment to their health and well-being.

Q *Lastly, is there anything else you would like to share with our readers about your vision for healthcare and the role of DPU Super Specialty Hospital in shaping the future of medicine?*

I believe that the future of healthcare lies in innovation, collaboration, and a steadfast commitment to patient-centric care. At DPU Super Specialty Hospital, Pimpri, Pune, we are proud to be at the forefront of this transformation, shaping the future of medicine through groundbreaking advancements and a relentless pursuit of excellence. Together with our patients, partners, and stakeholders, we will continue to lead the way towards a healthier, brighter future for all.
